

VETERINARY

PRODUCTS

PRODUCTS	REF .NO	PACKAGE	TYPE
CHROMagar Mastitis For the isolation and differentiation of mastitis -involved pathogens	2054	plate	90 mm
CHROMagar Orientation For the isolation and differentiation the wide spectrum of gram negative and gram positive bacteria.	1410	plate	90 mm
Columbia Agar with 5% sheep blood For the cultivation of a wide variety of fastidious microorganisms..	1190	plate	90 mm
Edwards Agar Modified with 5% sheep blood For the selective isolation of <i>Streptococcus agalactiae</i> and other <i>Streptococcus</i> spp.	1220	plate	90 mm
CHROMagar Strep B For the selective isolation of <i>Streptococcus agalactiae</i> .	1007	plate	90 mm
Mannitol Salt Agar (Chapman) For the isolation of <i>Staphylococcus</i> spp.	1050	plate	90 mm
CHROMagar Staphylococcus aureus For the selective isolation of <i>Staphylococcus aureus</i> .	1404	plate	90 mm
MacConkey Agar with Crystal Violet For the isolation and differentiation of gram negative enteric bacilli.	1020	plate	90 mm
CHROMagar ECC For the isolation and enumeration of <i>Escherichia coli</i> and other coliform	1401	plate	90 mm

URINE

PRODUCTS	REF .NO	PACKAGE	TYPE
CHROMagar Orientation For the isolation and differentiation the wide spectrum of gram negative and gram positive bacteria.	1410	plate	90 mm

Mannitol Salt Agar (Chapman) For the isolation of <i>Staphylococcus</i> spp..	1050	plate	90 mm
CHROMagar Staphylococcus aureus For the selective isolation of <i>Staphylococcus aureus</i> .	1404	plate	90 mm
Sabouraud Dextrose Chloramphenicol Agar For the selective isolation of fungi.	1231	plate	90 mm
CHROMagar Candida For the isolation and differentiation of <i>Candida</i> spp.	1400	plate	90 mm
MacConkey Agar with Crystal Violet For the isolation and differentiation of gram negative enteric bacilli.	1020	plate	90 mm
Enterococcosel Agar (Bile Esculine Azide Agar) For the selective isolation and differentiation of Group D <i>Streptococcus</i> ..	1070	plate	90 mm

SKIN, MUCOUS MEMBRANE

PRODUCTS	REF .NO	PACKAGE	TYPE
CHROMagar Orientation For the isolation and differentiation the wide spectrum of gram negative and gram positive bacteria.	1410	plate	90 mm
Mannitol Salt Agar (Chapman) For the isolation of <i>Staphylococcus</i> spp..	1050	plate	90 mm
CHROMagar Staphylococcus aureus For the selective isolation of <i>Staphylococcus aureus</i> .	1404	plate	90 mm
CHROMagar Maltasezia Isolation and quick identification of <i>Maltasezia</i> sp.	1407	plate	90 mm
MYCAGAR (Fungisel Agar / Sabouraud Dextrose Chloramphenicol Agar) For the isolation of fungi.	7050	fiolka	10 pcs
Pseudomonas CN Agar For the selective isolation of <i>Pseudomonas aeruginosa</i> .	1022	plate	90 mm

EXTERNAL AUDITORY CANAL

PRODUCTS	REF .NO	PACKAGE	TYPE
CHROMagar Orientation For the isolation and differentiation the wide spectrum of gram negative and gram positive bacteria.	1410	plate	90 mm
Mannitol Salt Agar (Chapman) For the isolation of <i>Staphylococcus</i> spp.	1050	plate	90 mm

CHROMagar Staphylococcus aureus For the selective isolation of <i>Staphylococcus aureus</i> ..	1404	plate	90 mm
Columbia CNA Agar with 5% sheep blood For the selective isolation of gram positive bacteria.	1191	plate	90 mm
Enterococcosel Agar (Bile Esculine Azide Agar) For the selective isolation and differentiation of Group D Streptococcus.	1070	plate	90 mm
CHROMagar Malassezia Isolation and quick identification of <i>Mallasezia sp.</i>	1407	plate	90 mm
Pseudomonas CN Agar For the selective isolation of <i>Pseudomonas aeruginosa</i> .	1022	plate	90 mm

CONFIRMATION

PRODUCTS	REF .NO	PACKAGE	TYPE
Microgen STAPH Quick confirmation of <i>Staphylococcus aureus</i> .	M43	100 test	latex
	M433	500 test	latex
Oxidase strips Confirmation of <i>Pseudomonas aeruginosa</i>	MID 61 g	50pcs	strips
Catalase test Detection of catalase activity.	315	bottle	30 ml

SUSCEPTABILITY

PRODUCTS	REF .NO	PACKAGE	TYPE
0,9% NaCl Solution For the preparation of microbial suspensions.	6149	tube	5, 9 ml
Mueller Hinton II Agar For use in antimicrobial susceptibility testing by the disk diffusion method.	1170	plate	90 mm
Mueller Hinton II Agar z 5% krwi baraniej For use in antimicrobial susceptibility testing by the disk diffusion method.	1172	plate	90 mm

MASTDISCS™ (antibiotics discs)
